

# NIKHIL SINGH BOURA

## WORK EXPERIENCE

### GSL-AI Shirawi Group of Companies

OCT 2024 - PRESENT

Junior System Analyst - Developer | Dubai

- Developed full-stack Django Python web application with form validations and MSSQL integration to digitize warehouse tally sheets. **Skills:** Django, Python, MSSQL
- Built .NET backend web application functionality enabling operations team to update database fields through web forms. **Skills:** C#, .NET, MSSQL
- Managed MSSQL database operations for 3PL warehouse system, optimized query using CTEs and advanced SQL views, and created SSRS and IBM Cognos reports. **Skills:** MSSQL, SSRS, Cognos, SQL
- Assisted in the migration of on-premises application and MSSQL database to Azure Cloud, including path reconfiguration and post-migration functional and data validation testing. **Skills:** Azure, MSSQL, testing
- Developed a full-stack application to track and visualize c-suite employee leave schedules with an intuitive calendar interface. The system pulls real-time data from an MSSQL database and displays it in a responsive, user-friendly format. **Skills:** React, TypeScript, Vite, Tailwind-CSS, FastAPI, Python, MSSQL

### Barakat Group of Companies

JAN 2024 - JUL 2024

Data Analyst Intern | Dubai

- Saved the company 50,000 AED per week by automating competitor data scraping using Python web scraping packages to compare and adjust prices. **Skills:** BeautifulSoup, Selenium, Python, Insomnia API REST platform
- Developed User-friendly Django web application for the QA team that stores data in MSSQL database and generates Power BI reports. **Skills:** Django, MSSQL, Power BI, Excel, Python, Ubuntu, HTML, CSS, Jinja
- Created Passport control dashboard for passport tracking and expiry of the blue-collar daily workers using Power BI for HR. **Skills:** Power BI, Business Intelligence, Report Development

### Upskillr.ai

SEP 2023 - DEC 2023

AI Engineer Intern

- Built a PDF chatbot using LangChain and OpenAI API, enabling users to query PDF documents up to 200MB. **Skills:** Langchain, Hugging Face, Python, Large Language Models

### Lupin Limited

JUN 2022 - AUG 2022

Data Analyst Intern | Mumbai

- Performed exploratory data analysis and built machine learning models on pharmaceutical datasets using Python and Pandas. **Skills:** ML Algorithms, Data Modelling, Exploratory Data Analysis, Pandas, Python

## PROJECTS

### Asphalt Pavement Design Optimization using ML & ANN

Semester Project - Feb 2023 to June 2023

- Built ML and ANN prediction models to forecast rut depth and International Roughness Index (IRI) for cost-effective asphalt pavement design optimization

### Customer Credit Card Churning in Machine Learning

December 2022

- Developed a Streamlit web application using XGBoost to predict credit card customers churn through data preprocessing, visualization, and predictive modeling

## EDUCATION

### BITS PILANI DUBAI CAMPUS

B.E: Computer Science

GPA: 7.9

## TECHNICAL SKILLS

### Languages:

Python, TypeScript, JavaScript, C, C#, SQL, HTML, CSS, PowerShell, Bash

### Frameworks & Libraries:

Django, Flask, .NET, React, Pandas, Selenium, BeautifulSoup

### Tools & Platforms:

Azure, MSSQL, MySQL, PostgreSQL, Git, VS Code, Postman, Insomnia, Jupyter

## CERTIFICATIONS

Microsoft: Azure Fundamentals AZ-900 25'

Anthropic: Building with the Claude API 25'

Coursera: Data Analytics with Wharton University 23'

Python Masterclass 21' (Udemy)

Data Analysis with Python and Pandas 22' (Udemy)

Microsoft Power BI 24' (Udemy)
